EXPERTS IN SEASONING SINCE 1919

EXPERTS IN SEASONING SINCE 1919

THE BRAND

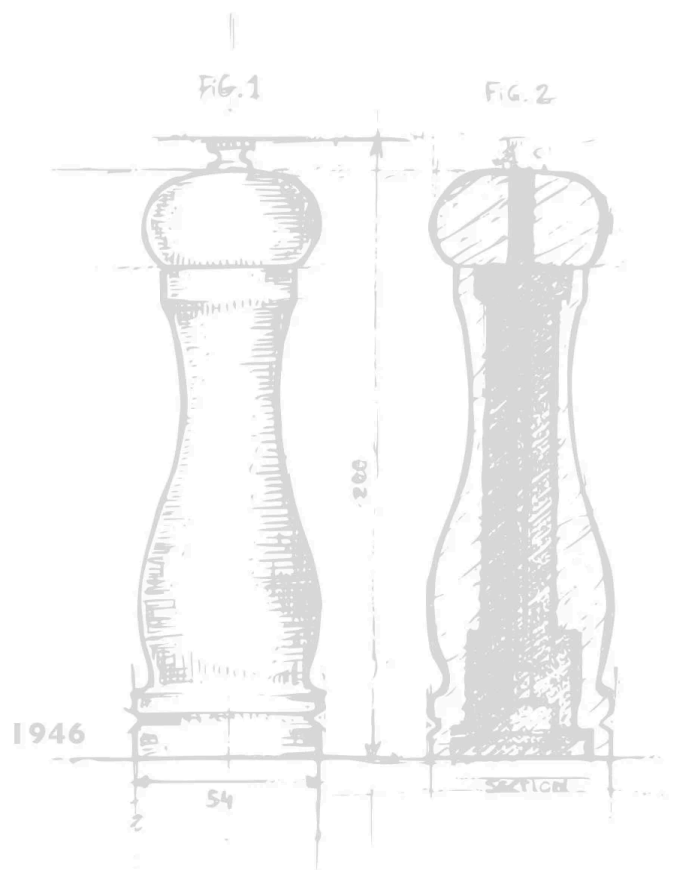

The origins of our brand date back to 1919 when Cole & Mason was founded as a giftware company in the historic heart of the City of London. The company soon expanded into general home goods and in 1946 we launched our first wooden mill for seasoning.

A passion for flavour was ignited: inspiring us to develop made-to-last products to bring out the best in everyday food using the latest technologies and materials. This quest for quality and innovation are at the heart of the Cole & Mason story to this day.

Our aim is to provide you with both the tools and knowledge to bring out maximum flavour and taste when cooking and entertaining. We want to help make every single cooking experience a memorable one so that the feeling of each meal will resonate with you long after enjoying it.

Our products have been thoughtfully designed to be functional as well as beautiful, with carefully selected quality materials that don't just look good - but have integrity too. They are there to enhance your table and kitchen décor, as you get creative with flavours.

Whether you're a first-time cook or an experienced chef, whether you have a traditional or contemporary taste in design, you'll find in Cole & Mason an excellent partner to achieve great things in the kitchen.

HELPING YOU
TO RELEASE THE
FLAVOUR OF ANY
MEAL, EVERY DAY.

ABOUT OUR MILL MECHANISMS

All of our premium pepper mills feature our patented carbon steel Precision+ mechanism, which was developed in conjunction with Nottingham University's Aroma Laboratory. Representing a new level of performance, our Precision+ mechanism is able to deliver more pepper per turn and is scientifically proven to release more flavour than ever before.

All of our premium salt mills feature a unique sharp ceramic mechanism which prevents corrosion over time unlike other salt mills that feature a metal mechanism. Our salt mills are intended for use with dry salt crystals only.

The designs of our mill mechanisms were created in-house by Cole & Mason and are IP protected to ensure no imitations. Furthermore, they are confidently supported by our Lifetime Guarantee.

ABOUT OUR GRIND SELECT MILLS

Our premium range of grind select mills gives the cook complete control with 6 pre-set grind levels for pepper and 3 pre-set grind levels for salt, to provide precise adjustment of the grind from fine to coarse. Select a fine grind for a big punch in sauces or soups or effortlessly switch to a more coarse grind for a more subtle but longer lasting taste, great for salads or steaks.

THE LONDON MILL COLLECTION

Made from durable acrylic or high-grade beech wood, the new London mill both honours our heritage and looks to the future with a classic, yet contemporary aesthetic. Its timeless design will prove a stylish addition to both traditional and modern kitchens.

The shape of the mill has been inspired by the beautiful Art Deco and industrial British architecture that can be found throughout the city of London, the birthplace of Cole & Mason.

A hand with pink nail polish holds a clear acrylic pepper mill with a dark wood top and base. The mill is tilted, and a stream of ground black pepper is falling onto a white plate filled with a colorful salad of green and purple lettuce, tomatoes, and other vegetables. The background is dark, and a portion of a floral-patterned sleeve is visible. In the top left corner, there is a stylized geometric logo.

THE DERWENT MILL COLLECTION

Made from crystal clear acrylic with a beech wood or stainless steel top and base, the Derwent mill, with its clean lines and sophisticated timeless design, makes a beautiful addition to any kitchen or dining space.

Featuring Cole & Mason's innovative grind select functionality, the Derwent pepper mill comes with 6 grind settings and the salt mill with 3. By moving the grind select band along the dots, you can easily change the grind from fine to coarse, giving you complete control when seasoning your dishes.

A close-up photograph of a person's hands holding a clear acrylic pepper mill. The person is wearing a patterned long-sleeved shirt. The mill is being held over a dish of food, which appears to be a salad or a stack of bread topped with vegetables and meat. The mill is tilted, and a small amount of ground pepper is falling from the bottom. The background is dark, and the lighting is focused on the hands and the mill. The overall aesthetic is modern and elegant.

ACRYLIC MILLS

Our extensive range of acrylic mills are a stylish, elegant, and modern addition to any kitchen. They are easy to clean and refill and their see-through exterior means the salt and pepper are easy to distinguish. Plus, you'll never unwittingly run out of salt or pepper.
