ESPIEL

Espiel was founded in 1988. Ever since, the company accomplished not only to establish but also to maintain through the coming decades a strong profile of expertise in the areas of glassware, elegant dinnerware, tableware and eclectic deco objects.

The core idea behind Espiel is to deliver premium quality design products, being both functional & durable delivering an added value to customers' perception.

In this catalogue, there is being presented a wide & representative always-on-stock product range. Furthermore, there is a cumulative inventory of more than 10.000 articles constantly renewed on an annual basis.

Thus, the commitment to this vision, led to the development & maintenance of Espiel brand. The constant effort to achieve an ideal combination of high quality, functionality & aesthetics appeal has always encouraged Espiel in discovering new materials, shapes & design concepts.

All these years, representing outstanding brands and cooperating with exceptional manufacturers & designers worldwide, Espiel established its own unique & diversified style.

Focusing on exceptional customer service by handling every individual requirement through customized solutions gives us the advantage of establishing long - term partnerships.

Moreover, our deep knowledge of our field has praised us with international approval & enhanced our presence to more than 15 countries worldwide.

## Points of Excellence

- Premium Customer Service by delivering efficient performance
- Long-term, collaborative & trusting partnerships
- Reliability and ability to meet deadlines in all areas of the partnership
- Active collaboration and innovative solutions
- Excellent quality & premium design products
- Flexibility upon customer's request
- Customized products upon request
- Exclusive agency of worldwide brands under ESPIEL partners alliance
- Wide variety of over 10.000 articles always on stock
- More than 3.000 novelties annually
- Sustainability and commitment to social standards
- Competitiveness in quality & pricing
- Effective quality management system by obtaining all the necessary certificates
- Eco Friendly products
- Integrated warehouse management & logistics system
- A "dynamic" site (www.espiel.gr), continiously enriched with new product codes, including the entire home, professional (HO.RE.CA) and deco collections. It is easy to be used and allows our customers to sign-in and check for existing & new products and their availability

## Features & Benefits

Espiel's all products meet the quality standard for food service tableware and insure compliance according to European regulations.

Every product has passed the relevant food safety test according to each material, that ensures the safety of contact with food:

- Eco friendly materials
- Excellent quality and design
- Lead Free
- Cadmium Free
- Inglaze procedures for long product lifetime
- Professional sustainability to hard, all-day use
- Resistance and durability

As you know, design itself is never enough. The hospitality industry is built on usability, longevity, and efficiency. Nude understands this and holds these values at a premium. There are specific benefits of using lead free crystal glass, some practical, some aesthetic. Our machine-made crystal offers high durability thanks to its composition and manufacturing process.

Simple is beautiful, pure, clear, transparent.

Simple is useable, clean, uncluttered, practical.

Simple is convenient, reliable, professional.

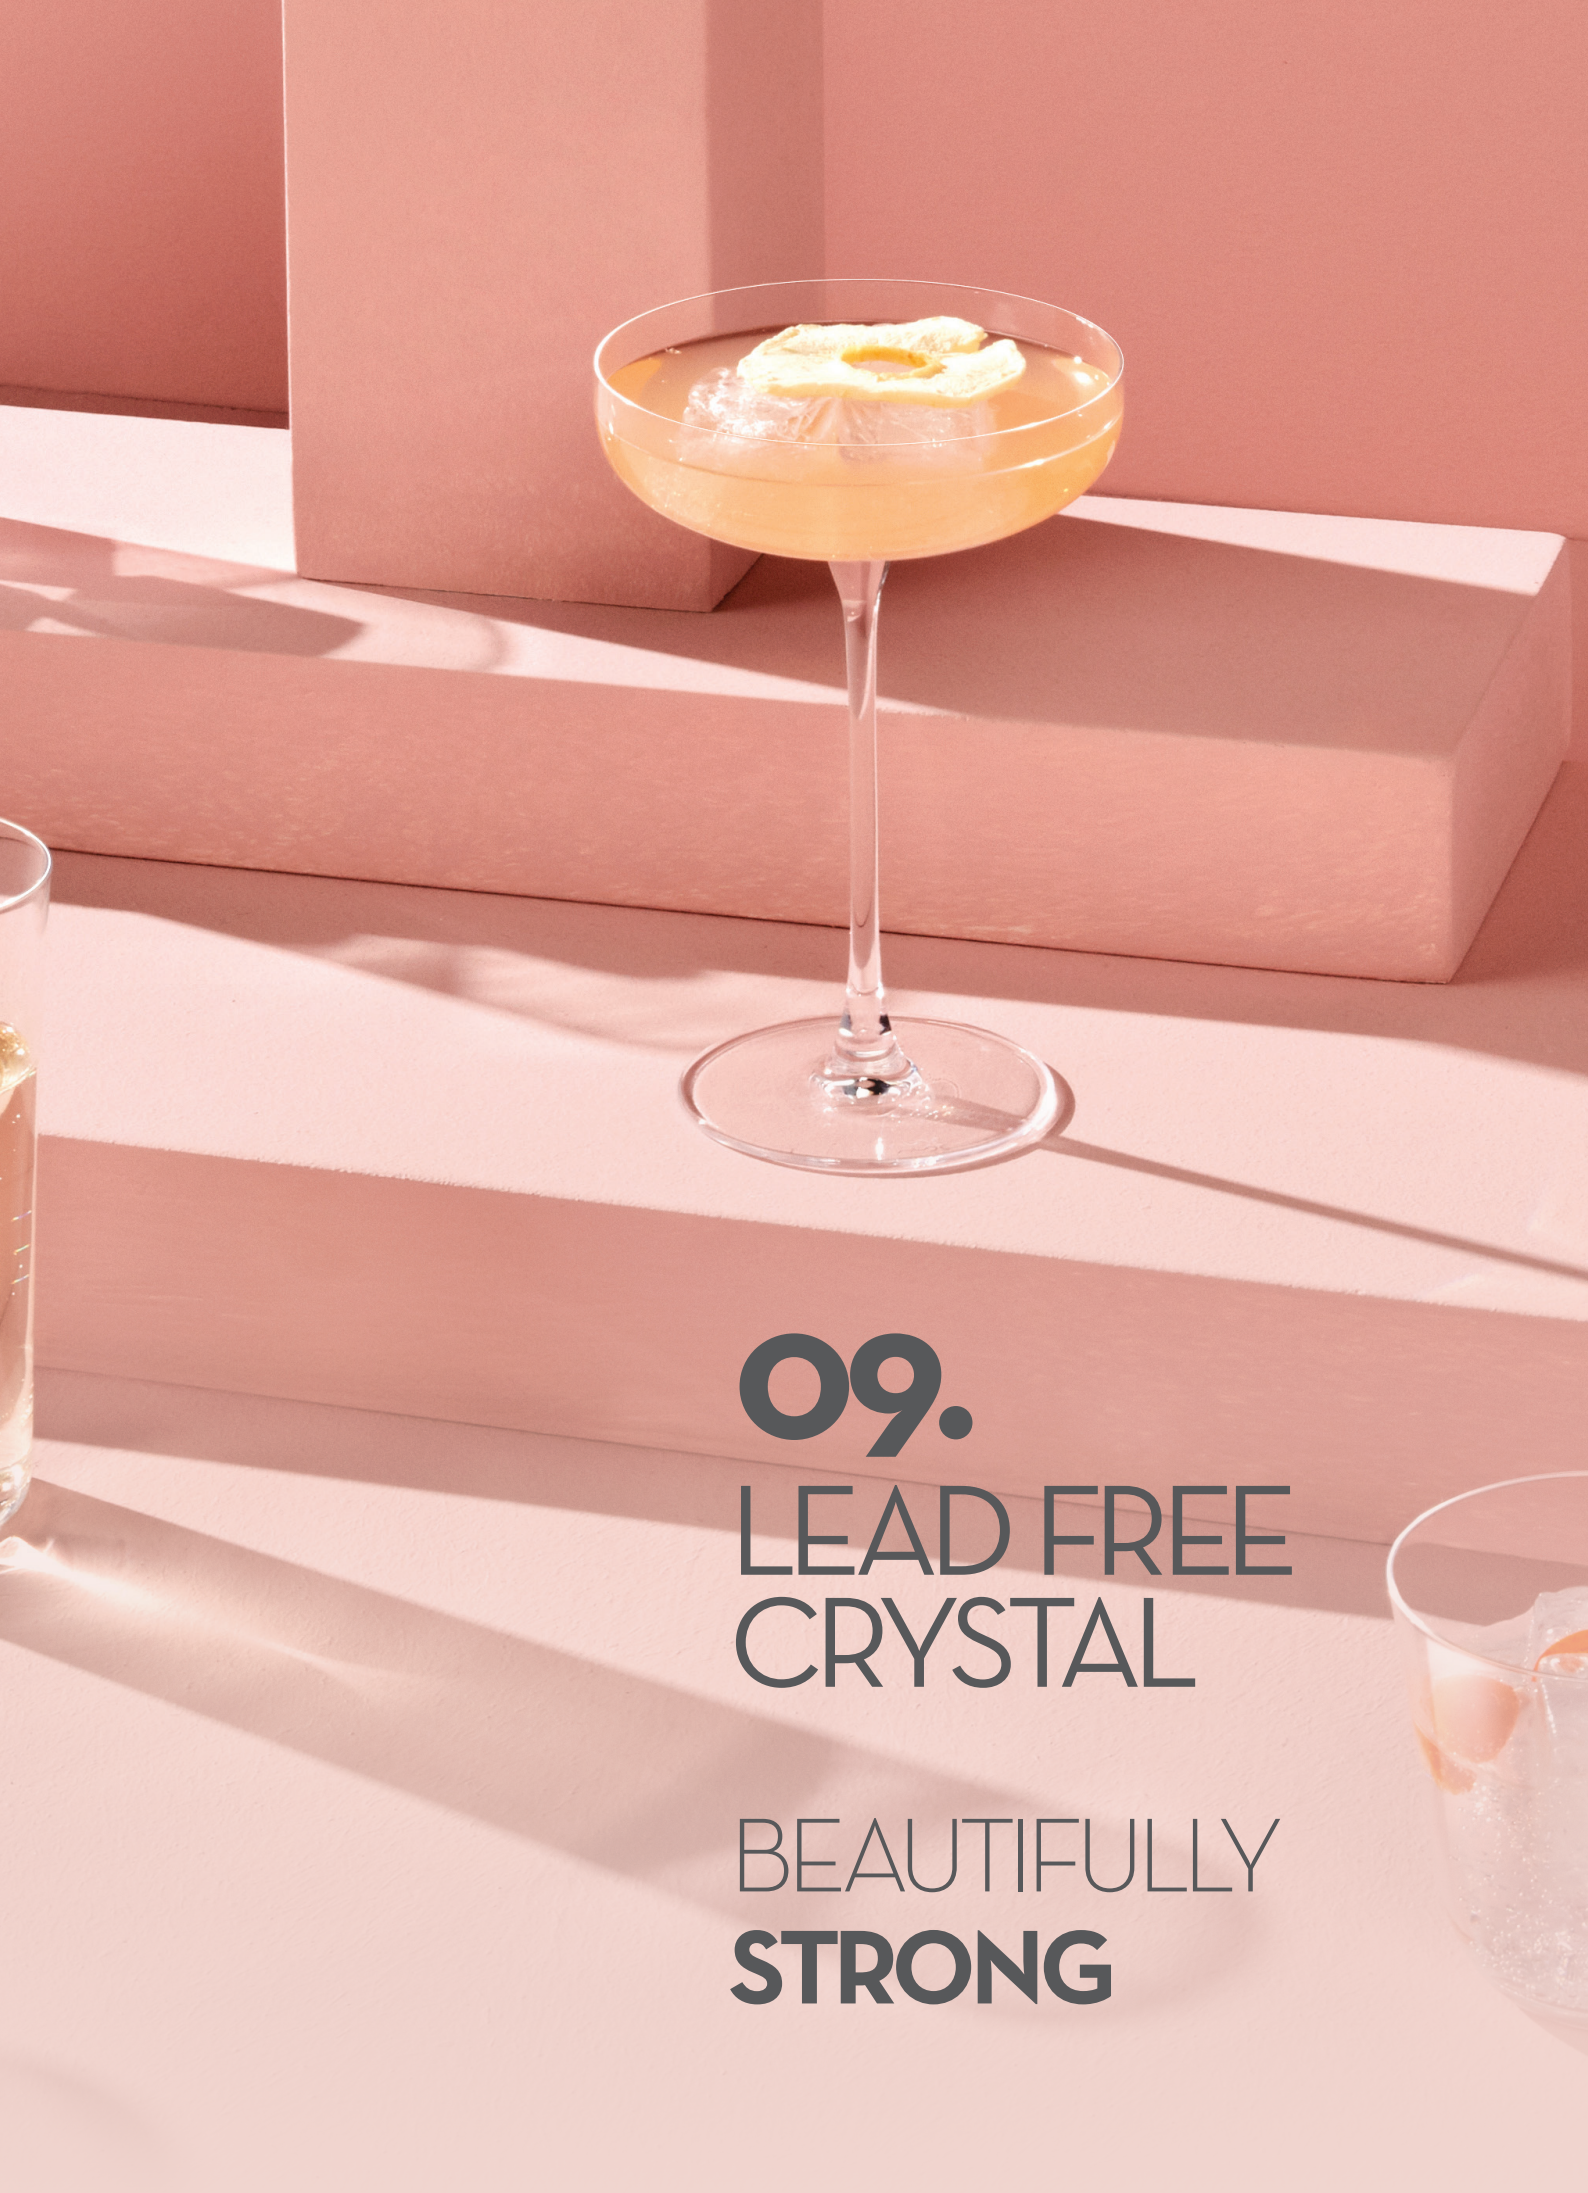

Simple is all of these things, and also the reason why things are so rarely simple.

**NUDE** considers actual and specific needs, then refines them to their essence. The final object is thus both easy to understand and work with.

**NUDE** believes less equals more, that form works best when it meets function. Where everything is appropriate in the right place at the right time, the right delivery for the right need.

- Special composition and manufacturing process rendering **high durability**
- Dishwasher safe up to **5,000*** cycles
- Refractive index **>1,520**
- Lightness **~ 99% ***
- Distinguished by its **superior sound**
- Lead-free / Ultra clear crystal glass

* According to ISO IWA-8 "Tableware giftware jewellery luminaries – Glass clarity – Classification and test method"

Safety Comes First, Resistance and Durability is our aim. We know the importance of safety when it comes to exceptionally busy kitchens of restaurants, bars and cafes. Therefore we put our highest efforts on developing a wide range of tempered glassware for maximum safety, for superior resistance and durability of our products.

Presentation affects the pleasure of drinking as much as the consistency, taste, and aroma of the drink itself. An elegant design first appeals to the eye and prepares the palate for the taste. Glasses specially designed for different types of drinks reveal the true flavor of the drink. Some drinks need a wide-bodied glass to unveil the aroma while some drinks taste better in a thin glass widening towards the rim. Discover a wide range of classic and modern products that take the drinking experience to new heights.

# 10. GLASSWARE

**STACKABLE ITEMS**
In a crowded and highly-active kitchen, what you need is to store more kitchenware in less space. Our stackable products designed just for this need are the perfect solution for you.

**FULLY TEMPERED**
Full tempering process increases the durability of products which are subject to frequent heat changes during cleaning and use throughout the day. In this process the glass products are heated up to the melting point and then cooled in a controlled manner, which results in the shattering of glass into small and harmless pieces in possible breakages, minimizing the risk of injury.

**EXTRA RESISTANT**
Our products such as plates and bowls manufactured by spinning process are hardened against sudden heat changes and shocks with special technologies.

**FINE RIM**
Laser technology applied to rim areas of glasses enables us to enhance drinking experience as well as to extend the life cycle of glasses exposed to intensive use.

**VIBRANT COLORS, UNIQUE PATTERNS**
We invest in the highest technology to make sure that our products reflect the latest trends. Our decoration lines decorate glassware with wonderful colors and breathtaking patterns to keep you always on trend.

**RIM TEMPERED**
We know that you want to use our products longer. With the rim tempering process, extensive heating and cooling is applied to the rim, thus minimizing the risk of breaking and cracking while increasing the lifespan of products.

# THE FINISHING TOUCH

Any drink, whether it's a cocktail, wine or beer, is best enjoyed in a glass that enhances its taste, smell and appearance . At ONIS , we truly believe the right glass adds value, as it's the first impression of the drink to your guest . We want the right glass to enrich the flavor and aroma of your drink to make it even more enjoyable. But we also want it to stand out. Choosing the right glass makes all the difference and is the final step to make the drinking experience perfect. The final effort that elevated this experience from good to great.

All details count when creating the ultimate drinkiung experience, where the glass is the finishing touch !
